

## Campus Updates

Announcements and happenings related to IITGN campus

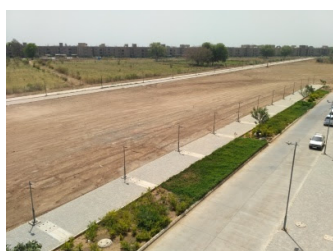

### Boundary Wall and Entrance Gates

The construction work of the boundary wall and the entrance gates have been awarded by CPWD and is likely to start in the next few days. The boundary wall is designed with a significant amount of transparency and rhythmic patterns to allow outsiders a sense of the campus from outside instead of a long monotonous wall.

### New Hostels

The detailed designs for next set of 6 new hostels are nearing completion. The construction activities will start soon. It is therefore time to start thinking of names for the next set of 6 hostels. So please send your suggestions of names for the new hostels following the philosophy of our previous hostel names to [campus@iitgn.ac.in](mailto:campus@iitgn.ac.in).

### Central Vista

The Central Vista work is in progress and the plantation work will start soon. In the coming monsoon we can expect extensive tree plantation in the Central Vista region. Some of the trees that will be planted in the Central Vista are Indian Tree of Heaven (*Ailanthus excels*), Neem, Kassod (Siamese Senna), Gulmohar, Banyan, Fig Tree, Mahua (*Madhuca longifolia*), Jambu, Tamarind, Badam and Sandalwood.

### Displaying Research Posters

Wouldn't it be good if our research more visible when you are walking around the academic area?. With this in mind, a few locations have identified where faculty and researchers are encouraged to display research posters. These along with locations that are to be kept free of posters and signs are outlined in the document [here](#).

### Solar Carport

The Solar Carport work along with the shaded walkaway is going on in full swing and is expected to be completed in the coming weeks.

### River Promenade

The River Promenade along the western boundary of the campus is one of the main conceptual anchors of the proposed open space system. The work is in progress behind Academic Buildings 9, 4 and 3, and will likely be completed in the next several weeks. It is designed as a broad landscaped walkway for movement and informal activity along the river.

### Online Information

Continue to follow information related to the Campus and its Features, Facilities, etc. [here](#). (Main IITGN Website -> Campus on Sabarmati).
